

Government / Institutional Reference List

Use these as background sources. Verify the exact official publication/version before final SIH submission.

1. SIH / Ministry of Steel / NMDC

Smart India Hackathon 2026 PS 26007: Safe and Efficient Operation of Mine Vehicles in Fog and Low-Visibility Conditions in Open Cast Iron Ore Mines. The uploaded ProofRoad document identifies the problem as Ministry of Steel / NMDC and uses PS 26007. Secondary reproductions of the SIH statement are available online, but the official portal should be treated as authoritative for submission details.

NMDC operational background in the SIH statement is reproduced by multiple SIH problem archives. Use the official NMDC/SIH material for final numerical claims.

2. Visibility measurement

UK Met Office, How we measure visibility. It explains instrument-based visibility measurement and meteorological optical range. ■cite■turn0search9■

3. Mining vehicle interaction

EMESRT, Vehicle Interaction Improvement. Institutional mining-industry resource on improving vehicle interaction controls. ■cite■turn0search13■
