Reference List: Research Papers

1. Sheeny, M., de Pellegrin, E., Mukherjee, S., Ahrabian, A., Wang, S., Wallace, A. (2021). RADIATE: A Radar Dataset for Automotive Perception in Bad Weather. IEEE ICRA 2021. DOI: 10.1109/ICRA48506.2021.9562089. ■cite■turn0search6■
2. Additional research to add during the next phase: adverse-weather radar perception, radar-camera fusion, thermal object detection in fog, mining vehicle collision avoidance, human factors in warning systems, and V2V safety messaging. The uploaded ProofRoad document does not provide a complete bibliography for these areas, so they should be added only after verification.
